SUMMARY

Software Developer | Backend Development | Python | Django | SQL

Backend-focused developer skilled in Python, Django, SQL, and REST APIs. Experienced in building web applications, designing databases, and developing scalable backend systems. Strong problem-solving abilities with a focus on writing clean, efficient, and maintainable code.

Projects

Full Stack Job Portal | Django, Python, SQL

- Developed a full-stack job portal enabling job seekers to register, apply for jobs, and manage profiles
- Implemented employer functionalities for posting jobs, managing applications, and candidate tracking
- Designed and integrated relational database models for users, jobs, and applications
- Built authentication, authorization, and role-based access control using Django
- Tools Used: **Python, Django, SQLite/MySQL, HTML, CSS, Bootstrap**

Medicine Recommendation System | Machine Learning

- Developed a machine learning-based system that recommends medicines based on user-reported symptoms
- Performed data preprocessing, feature engineering, and model training on healthcare datasets
- Generated additional outputs including disease information, causes, and dietary recommendations
- Evaluated and optimized classification models to improve prediction accuracy
- Tools Used: **Python, Pandas, NumPy, Scikit-learn, Flask**

Experience

Market Research Intern — GraphiMitra

Oct 2025 – Mar 2026

- Collected, processed, and validated large datasets from multiple sources to support business research initiatives
- Analyzed structured datasets to identify trends, patterns, and actionable insights
- Collaborated with cross-functional teams to deliver data-driven reports and business recommendations

Technical Trainee — Current Organization

Mar 2026 – Present

- Worked with industrial automation systems, analyzing technical requirements and system specifications
- Assisted in troubleshooting, documentation, and configuration of control and monitoring solutions
- Interpreted technical documentation and collaborated with teams to support project execution
- Strengthened problem-solving, debugging, and analytical skills while working on real-world technical systems

Education

B.Tech in Electrical and Electronics Engineering, Bhilai Institute of Technology,
Durg

2021–2025

Higher Secondary Certificate (87%), Krishna Public School, Dunda

2020–2021

Secondary Education (86%), Krishna Public School, Dunda

20218–2019

Technologies

- **Programming Languages:** Python, SQL, React
- **Backend Development:** Django, REST APIs, Authentication & Authorization, CRUD Operations
- **Databases:** SQLite, MySQL
- **Frontend:** HTML, CSS, React
- **Libraries & Frameworks:** Pandas, NumPy
- **Tools:** Git, GitHub, VS Code, MS Excel
